SINGLE FAMILY RESIDENTIAL HOUSE, WHICH IS DESIGNED AS A LOW-ENERGY BUILDING, IS LOCATED IN THE SOUTHEAST EDGE OF LESCE. BUILDING WITH ITS CONTEMPORARY DESIGN SHOWS A MODERN LIFESTYLE IN THE CONTEXT OF ITS SURROUNDINGS. NATURAL MATERIALS THAT APPEAR ON THE OUTER ENVELOPE OF THE BUILDING UPGRADE THE QUALITY PERCEPTION OF MARKED FACILITY. BUILDING SEGMENTATION IN RELATION TO THE SURROUNDINGS ACT LOGICALLY AND SPONTANEOUSLY. THE BUILDING WITH A MODERN APPROACH OF CREATING SPACE AND FUNCTIONAL IS A WELL-INTEGRATED WHOLE.
